

JCR-11

MASTERFORMAT Index

December 1973

May 1984, October 1999

Recommendations:

Insofar as practical, MASTERFORMAT for construction specifications should be used by architects and contractors.

Comments:

- A. MASTERFORMAT supercedes The Uniform Construction Index, which replaced the AIA filing system.
- B. It is of considerable value in categorizing specifications.
- C. It provides an excellent check system for architects and contractors as a guard against omissions in estimating and bidding.
- D. MASTERFORMAT is available from:

The American Institute of Architects
1735 New York Avenue, NW
Washington, DC 20006-5292

or

The Associated General Contractors of America, Inc.
333 John Carlyle Street, 2nd Floor
Alexandria, VA 22314

or

Construction Specifications Institute
99 Canal Center Plaza, Suite 300
Alexandria, VA 22314

End of JCR-11

This recommendation is the result of considerable discussion and deliberation by the Architect and General Contractor members of the Joint Cooperative Committee of AIA North Carolina and the Carolinas AGC. While its provisions are not binding on individual Architects or General Contractors, the committee believes that adherence to the recommendations will benefit the Owner and the Construction Industry in general.
