

## CAGC CLOSES THREE PLAN ROOMS EFFECTIVE APRIL 1

CHARLOTTE, NC- January 12, 2012- In late 2010, CAGC took the initial steps to evolve our operations since the launch of IBuild six years ago and closed five of eight plan rooms. The Board decided then that we had reached the point where on-line operations are permanently the manner in which construction business has, and must continue to, evolve.

In order to have the resources to continually invest in IBuild, and to keep all of our CAGC services at the level of excellence that our members have come to enjoy, we are continuing to free up the resources from our physical plan rooms. Effective April 1, 2012 we will complete this process, closing the remaining 3 plan rooms in Raleigh, Charlotte, and Columbia.
