Carolinas AGC serves the commercial and industrial construction industries— encompassing building, highway/road and utility work. We work with owners, architects/engineers and general contractors to procure project awards data on as much non-residential construction work in North and South Carolina as possible, resulting in our posting virtually all publicly-funded work as well as a more moderate degree of privately-funded work. Due to variations in procurement regulations and permitting requirements, no agency can make representation as to the overall universe of construction work across NC and SC.
